

UltraflowTM

BULK 1000ml

A single component manual bead applicator for bulk material

Anodised aluminium barrel that copes easily with high forces and rotates for manoeuvring into tight spaces.

Heavy duty cast aluminium handle, designed to accommodate high load requirements with ease.

PRODUCT FEATURES:

- Large sintered metal catchplate which offers high load resistance.
- Through hardened rod to increase resistance to bending and reduces scoring by the bigger catch plate.
- Metal wear compensation sleeve for protecting the catch plate contact area, to increase tool life.
- Hardened rod release plate for maintaining high material output for the life of the tool.
- Plated metal parts to increase corrosion resistance.
- Exceptional build quality makes this the ultimate high power manual gun (high service life expectation).
- This versatile tool is easy to use, with low and medium viscosity materials, as well as high viscosity types.
- Curved rod end (hook) for tool support and storage (optional extra).

The **Cox Ultraflow** is part of a range of high-powered manual applicators. Designed for use with medium to high viscosity sealants and adhesives, the Ultraflow Bulk is ideal for professional and high end/specialist trade users.

Ultraflow™

BULK 1000ml

A single component manual bead applicator for bulk material

APPLICATIONS:

- For medium to high viscosity
- Bulk Material Feed Capacity 1000ml

SPECIFICATIONS:

- Mechanical Advantage (ratio): 25:1
- Barrel Length: 537.40mm
- Max Force (Plunger): 4.5kN
- Tool Weight: 1.31 kg
- Tool Material: Epoxy coated aluminium handle, anodised aluminium barrel
- Certificates: ISO, REACH
- Packaging Options: 1 per box
